Gamma Sigma Delta

Four persons were given awards Monday night at the Gamma Sigma Delta banquet. First row from the left are: Robert L. Milam, Shepardsville, outstanding senior; and Earnest L. Harris, Prospect, outstanding alumnus. Second row, Benjamin A. Taylor, Maceo, outstanding junior; and John C. Ferguson, Sonora, outstanding

## **Honors Day Program** Cites 223 Students

The highest honors the University can bestow on graduating seniors will be awarded to one man and one woman during Honors Day ceremonies

The Algernon Sydney Sullivan Medallions, awarded for "the possession of such characteristics of heart, mind, and conduct as evidence a spirit of love for and helpfulness to other men and women," will be named during the 3:30 p.m. program in Memorial

Prof. Staley Adams of the College of Engineering, winner of the \$500 Alumni Association Award for outstanding teaching, will deliver the principal address at the ceremonies honoring the University's academically elite.

To be honored students must rank in the top three percent of their respective colleges. The 223 students to be honored include:

Seniors—Steadman T. Bagby Jr., Lexington; William R. Crain, Flemingsburg; Constantine W. Curris, Lexington; Sylvia C. Davis, Lexington; Elizabeth W. DuMez, Lexington; Elizabeth W. DuMez, Lexington; Shirley Rae Harrington, Great Falls, Va.; Beverly S. Kinkead, Lexington; Mary E. LaBach, Lexington; Sue A. McCauley, Lexington; George John McNulty, Philadelphia, Pa.; Vanda C. Marcum, Lexington.

## IFC Plans New Rush System

Kernel Campus Editor

The Interfraternity Council Tuesday approved a tentative plan for rush to go into effect in the fall.

The plan was approved by a 15-2 vote following a lengthy discussion of the procedure.

The plan uses a "bid system.

The system outlined by Tom Cooper, IFC rush chairman, will

work this way: Rushees will sign a bid card in the office of the dean of men. They will list fraternities they are

interested in pledging.

Each fraternity will compile a list of rushees they want to pledge. Then, the IFC rush compiled the compiled t mittee will compare the two and decide which fraternities the rushees will pledge. Later in the semester, freshmen will sign preference cards listing

the fraternities which impress them the most. Freshmen will not be pledged until the second se-

"When men are eligible to be pledged, fraternities give them pledge pins when rushees are willing to accept them.
"This is the biggest change the

IFC has made in its rush system since the adoption of deferred rush, but I would not call it a revolutionary process, but an evolutionary process.

studying mistakes of the past and trying to change them. The system we used last year tended to cheap-en rush and fraternities in the eyes

of students on the campus.
"We feel the new system as adopted will make rush short, dyadopted will make rush short, dy-namic, and appealing to both rushees and fraternity men."

The tentative dates for rush were set for Sept. 20-27. Open

## Troupers Present Show Friday, Saturday Nights

Friday and Saturday nights at Lauderdale, Fla. the Alumni Gym.

The setting and theme for the musical comedy is just plain collegiate.

"Collegiate," directed by Troupester. ers' sponsor, Bernard Johnson, is Bill Cooper, IFC president, gave a show of dual nature. The first

of men. Connor said the organization was open to both independent and fraternity men.

ident, in the front page story headlined, "Candidates Give Views On Coming SC Election."

In quoting Brockman's statements, the Kernel inadvertently

I'm definitely anti-Greek, but

I think independents and Greeks should get together and really have a representative congress." The statement attributed to

Brockman should have written: "I'm definitely NOT anti-Greek. . . ."

The editors wish to apologize for this error of omitting one very

word.

As a further explanation of his views, Brockman issued the fol-lowing statement:

"The article should have said that Student Congress has been dominated in the past by rep-resentatives who are also members of fraternities and sororities. As such, these representatives have interests generally similar to those shared by other Greeks

"Student Congress, therefore, has not been truly a student body representative organization because the largest group on campus—the independents—haven't been equally represented.

of a social Greek organization, I would like to stress that I am NOT anti-Greek. It is my purpose and hope, however, to interest the un-affiliated students in their Stu-"In the Kernel of Wednesday, dent Congress so independents and May 9, I am misquoted in the Greeks can get together and real-article on the views of the can- ly have a representative congress." dent Congress so independents and Greeks can get together and real-

'It's All In The Touch

Says freshman Jerry Berzofski as he shows coeds Bonnie Cox (left) and Sharon Rawlinson the fine points of pool. The rest of the University's female population will get their chance to learn the game today from 1-5 p.m. in the game room in a women's day event sponsored by the SUB Recreation committee. There will be no admission to ladies for the afternoon, and no admittance to gentlemen.

## Coliseum To House Science Fair Friday

An Eastern Kentucky State College scholarship of \$100 will be the prize for the top project in this year's State Science Fair Friday and Saturday.

The fair, in which high school pupils compete for prizes with lab-oratory projects, will be cospon-sored by the UK Department of Zoology and the Kentucky Junior Academy of Sciences

## Students To Select SC Officers May 14

A campus-wide election, the first in two years, for Student Congress officers is set for 7:45 of cheating. a.m. to 5:30 p.m. Monday, May

Designated polling places will be in the main corridor of the Journ-alism Building and the voting booth in the Student Union Build-

Each student must present his ID card in order to vote. He must also sign the register at the poll. ID cards will be punched on the "x" which preceeds the word "sign" before the student's signature to safeguard against the possibility of a student voting twice.

On the ballots, the names of the nominees will be printed under the title of the office for which they are running.

There will also be space on the ballot for write-in votes. Require-ments for a write-in candidate are completion of one full semester in residence, and full-time student

There will be at least two poll managers present at each voting area who will be responsible for enforcing the voting procedures. Marvin Henderson, chairman of the elections committee, said:

ry control and transportation

Prof. Schlaifer has come up with a new technique, the Bay-

esian decision theory. This tech-

nique blends mathematics and the manager to reach a solu-tion of the problem. When facts

are not available it substitutes business judgement concerning

## Fashion & Campus News

BARBARA FAULCONER Kappa Alpha Theta

Barbara was president of her pledge class last semester and was selected as the outstanding Theta pledge. She is treasurer of Junior Panhellenic and a member of the High School Steering Committee.

Hymson's Tota: Teens

by Sue McCauley

Barbara Faulconer, a member of Hymson's College Council, finds that Kentucky rain won't stop even when she is trying to make a getaway from the dorm.

So she wears the latest in rain-coats — blue denim. This one is lined with fashionable Madras plaid. This one is She carries a sophisticated white umbrella that doubles as a parachute if she falls.

Her sheath skirt-also is fashioned in blue denim. With it, she wears a drip-dry shirt styled with a collar-band and roll-up sleeves.

Actually she wasn't making a get-away from the dorm. What really happened was that a month or so ago I was walking up the alley by the Lafayette Hotel from the park-ing lot and decided that it looked romantic and like Paris and that I should take some fashion shots from

So Barbara selected an outfit that would look like a girl should look when walking and daydreaming by the Seine and we went over to take

the picture, and guess what?
There were all these little men there, and they were tearing up my romantic alley and making it look modern. There was one little man on a stepladder, so we said, "Little man, could we use your stepladder for a minute?" And he said, "Sure, lady. I' don't mind. I get paid by the hour. Four dollars an hour."

So we took the picture and came back to campus to go to class to finish college, so that we can get a good job—making about . . . well, not four dollars an hour, anyway.

## Why The Brown Card?

Every semester students turn through the pages of the schedule of classes with dreams of having that "ideal schedule" the next semester. They go to the dean's office and pick up their little brown cards, then dutifully visit their advisers four or five times and finally plan their class schedule. After everything is in readiness for the next semester they give a sigh of relief and go home for the summer vacation.

After a summer of rest and relaxation they return ready to conquer new fields of knowledge, and some even look forward to the new classes. Again they march dutifully to the dean's office and pick up the little brown cards which have collected dust over the summer. They are marked "OK," so the student goes to

the Coliseum to pick up his IBM

Here, however, the poor student finds that half the classes he needs are closed. He has been trying to get in one of them for four semesters and hasn't succeeded yet. Another won't be taught again until after he is supposed to have graduated. The student ends up taking three courses he doesn't need, and his whole outlook on the semester is ruined.

It seems that those who hold these little brown cards all summer might look at them and see where extra sections of a class are needed. Just because a student registers last should not mean that he has to take all the classes no one else wants. He, too, should take what is pertinent and necessary to his degree and his future job. Why do we sign the little brown cards 'anyway?

### **Humor In Editorials**

By MAXINE CATES

Editorial Staff Writer

What has happened to the American sense of humor?

The editors of large metropolitan newspapers have lost the light touch of laughter which used to appear on editorial pages. Everything of late deals with the crucial political situations in Berlin, Africa, and South America. These events are important to the public knowledge, but it is always nice to discover some humor present in the paper.

It seems the only humor one finds on the opinion page is the cartoon. A newspaper is not displaying itself to its utmost when it must rely on the cartoon or comics for humor. It should utilize more comical news columnists and analysts.

The editor's motto should become, "news facts mixed with comedy." This sounds like a concoction for a recipe of some sort but the result could bring in a mint for the newspaper industry. If this recipe for humor were instituted, maybe the public's melancholy mind might become more saturated with articles included on the newspaper's one and only expression section, the editorial page.

In a recent article by James, alias "Scotty," Reston of the New York Times; it was said that newspaper editors ought to take a few lessons

from comedian Bob Hope.

For example:

"The steel industry finally found out who Big John is.

"Those Kennedys get around: They make the Roosevelts look like

shut-ins. They remind me of the Strategic Air Command: Somebody in the air all the time.

They've even split Massachusetts, High Mass and Low Mass.'

These examples are extremities which newspapers should not utilize but which editors should keep in mind while writing their editorials. After all, "news facts mixed with comedy" could bring in a mint by increasing the readership of the edi-

## Campus Parable

Presbyterian Chaplain

In The Screwtape Letters, by C. S. Lewis, there is a memorable sentence. The demon's plans to secure the soul of a certain man failed and in agony he falls on the floor of hell, not because his plan went awry, but as he says: "That this thing of earth converse with spirits.'

We walk this campus and our times in garments of clay-"of earth and slime" describes at least a part of our existence.

It is our eternal hope and dignity that through religious faith we encounter God and emerge trium-

## **One-Way Ticket**

The white supremacists in New One has only to look at the statistics, Orleans who are offering Negroes oneway tickets to the North are not, as they childishly suppose, starting something. They are only continuing, by unorthodox and sleazy means, what has become a tradition. Negroes trying to better themselves have been buying one-way tickets out of the South for a generation. In the 1950's alone 1.5 million Negroes moved to the North, and the exodus continues. In the past 30 years the percentage of American Negroes living in the states of the old Confederacy has dropped from 71 to 51. By the next census Southern Negroes will probably be a minority.

The migrants have not found the Promised Land in the North, but neither has their lot been the wretchedness the Citizens Councils evidently suppose it is. Segregation and discrimination, to our shame, continue, but there are also good schools, higher wages-and the right to vote.

from life expectancy to literacy to average income, to see why poor people are willing to accept help even from White Citizens Councils in mov-

Perhaps the sorriest part of this enterprise is that it started in New Orleans, a city with a long history of toleration, a cosmopolitan oasis and a center of civilized living. An uncouth and noisy minority has tried to blemish New Orleans's reputation, using these people as its instruments. The plan is likely to backfire: it will not add to the luster of New Orleans, but it may very well succeed in helping the Negroes who are the intended victims. -The Baltimore

#### Kernels

There must always be a struggle between a father and a son, while one aims at power and the other at independence. -Samuel Johnson.

## The Valuable Role Of Advertising

were not worth its salt the amount spent for this purpose would not have jumped from around \$200,000,-000 in 1880 to \$11,100,000,000 in 1959. Indeed, to imagine what would happen if all advertising stopped, we refer to an ad run by the Advertising Council: "Stores would begin cancelling orders. Very quickly, manufacturers would close down plants and lay off millions of employes. Volume production would be a thing of the past, so prices would rise fast. Within a week most radio and television stations would close up shop for lack of revenues. . .

It is perfectly true that all communications media would be hurt, newspapers, magazines, et cetera. If they managed to survive at all, prices would have to be raised to such a point that few could afford to buy them, as pointed out in a recent dis-By JOHN R. KING and slime could stand upright and cussion of the history and function of advertising by Robert E. Lusk, president of the New York advertising firm of Benton & Bowles, Inc.

While advertising, Lusk said, is tied closely to America's standard of living, it is the creature, not the cause of this high living standard. Its role is simply to sell goods and services.

Lusk denied that, as a general rule,

Money talks-and if advertising advertising serves only to increase the cost of the product; he argues that it has helped steadily to reduce product cost "by widening its base of acceptance and thus allowing more of it to be produced at a lower cost, thereby lowering the selling price.' He likewise denies that advertising makes people buy things they don't need, and asks: "Is it wrong for people to want these things, once they have been created, if they can afford to buy them?"

> Although some advertising annoys us, we believe Lusk makes a case; the nation could hardly get along without advertising. We believe Barron's financial weekly hit the nail on the head when it said, recently: "Despite its offenses and lapses, of which the Russians have just started many, advertising has much to be proud of. By carrying the word (albeit at times in bad grammar) from producer to consumer, the industry serves as an invaluable link in the U.S. chain of distribution (one which we believe there have been too copying). . . . On any sensible balance sheet, the assets plainly outweigh the liabilities."

> Huckster, in short, is not a dirty word.

## Student Art Exhibition **Opens Sunday In Gallery**

The annual student art show opens Sunday, 3-5 p.m., in the Fine Arts Gallery. It will encompass painting, sculpture, drawing, graphic arts, and ceramics.

five graduating seniors, Peggy Parks, Irvington; James Channon, Louisville; Lynn Bostick, Evelyn Elton, and David Otis, Lexington.

It will continue through June when two graduate students, Gal-aor Carbonell, from Cuba, and Phillip Harris, an instructor in art from Lexington, will have one-man shows in the gallery.

The exhibition, which will overflow from the gallery into the hallway opposite the Fine Arts library, represents 10 graduating seniors and about 30 undergraduates.

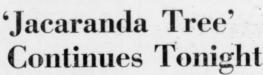

Richard B. Freeman, head of the Art Department, commented that this was the largest gradu- the Art Club.

The exhibition will "spotlight" ating class the department has ever had.

Works will also be displayed in the corridors of the first and seg-ond floors of the Fine Arts Build-ing. These will be representatives of the basic courses in design and

The juries selecting the exhibits are composed of two students, Evelyn Elton and Peggy Parks, and four faculty members, Richard Lethem, instruc-tor in art, and Edward V. Rannells, professor of art. Raymond Barnhart and Ann Green are judging the sculpture and cer-

there. The Guignol production is 'Summer And Smoke'

Geraldine Page clasps her throat in anxiety as she talks with Pamela Tiffin in a scene from the Hal Wallis film, "Summer and Smoke." This Ten-Wallis film.

nessee Williams drama concerns a prim and young woman and her tragic reversal of proper personality

## Picture Is 'Tour de Force' Director Charles Dickens was a principal cast member in the play when it was produced in 1956 in p.m. Tickets may be reserved at Cleveland. Ray Smith Guigned the Children by the Children by

sion of Tennessee Williams' play, "Summer and Smoke," provides a tour de force for actress Geraldine Page as the

Miss Page's second screen per-formance distinguishes her as one of the most brilliant actresses of our time. She has a supurb acting technique of which her eloquent and expressive hands seem to be the most important part.

Throughout, her performance is flawless, and her characterization is sensitive and packed with emotional intensity. Indeed, it is

above most superlatives.

The movie as a work of art is brilliantly produced and directed, and does a great justice to one of Williams' earliest works. Director Peter Glenville creates a moving and powerful study of a prim mingand powerful study of a prim min-ister's daughter who is full of af-fectations, and captures the full magnetism of Williams' writing.

Glenville seems to have staged the action as though it were being seen in full proscenium perspective. The audience has the sensation of viewing the most intimate happenings in the lives people in a small town

through a fourth wall which has been lifted so that they might

see clearly.
Aside from Miss Page's magnificent performance, the most moving aspect of the film is the openlonely and repressed heroine, ing scene. We are introduced to the two central characters, Alma Winemiller. and her next door neighbor, John Buchanan. They are children, and John meets her in the park under a statue of the angel "eternity." He is gently malicious in his conwith her and teases her with childish cruelty.

From the opening scene, the audience begins to feel the suffering which surrounds these very oppersonalities, and must helplessly as the lonely watch Alma emerges into a frustrated old maid who needs but cannot accept the physical love of the wild-living John, played with particular power by Laurence Harvey.

Alma must also suffer public embarrassment because of her mentally deranged mother, played expertly by Una Merkel. When we first see Alma with her mother, Miss Pace's hands are cleared in Miss Page's hands are clasped in an intense appeal for her mother to behave. And through the following scenes her hands seem to tell all. Every movement is a complete reaction and every reaction is sensitively calculated and exe-

The tragedy of Williams' her-oine lies in her complete per-sonality reversal. This change occurs when Alma can no longer keep her love for John, who has become a doctor at his father's insistence, on a spiritual plane. Her "pride" will not let her ad-mit that she loves him. She screams, "Did you in your wild-est imagination believe I would est imagination believe I would have relations with you?" She constantly tells him that he should throw himself into his work and forget his drinking work and lorget his drinking and lecherous living. When his father is killed by one of his drunken friends, he leaves and discovers his "self" in work. His return home is like that of a conqueror.

tries to see her. But her father will not permit the young doctor in the house. When he is gone, the father tells Alma that the doctor had come to see him, and did not mention her.

painfully up the stairs thinking too-brief run today at the Kenshe will always be what sveryone tucky Theatre. If for no other has called her—a prim old maid, reason than the performance is full of affectations. From her

from her house, and she shuts herself up with tragic finality when she pulls down her window shade which had always hidden her spying on him as he came and went from his house next door.

This climatic scene was so typical of Williams' endings that the audience expected nothing more. However, the tragic reversal has not een completed.

Some weeks later Alma is sitting in the park where she was first seen talking to John, under the "eternity" statue. She is older by years, beaten, and alone. One of her former music pupils recognizes her and joins her.

The young girl, Nellie Ewell, who is played with delightful innocence by Pamela Tiffin, has just returned from school for the holidays. She had been seen earlier as a breathless teenager who had in-nocently and fearlessly asked "Doctor Johnny" to tell her the facts—the facts of life.

She has emerged into a beautiand coquettish young woman while at school, and John has asked her to marry him. Of this, Alma knows nothing, but Nellie tells her that Dr. Johnny has said that it was Alma who brought him to his senses, and that he had likened her to an angel in his life.

Alma goes to see him, and realizes that he is changed. He respects her and is grateful to her for "saving" him. She begs him, "Please love me," and the char-acters have completely reversed. Her need for him is now desperate, and it has broken her.

and it has broken her.

This tragic encounter is interrupted when Nellie breezily comes in and insists that Alma sing at her and John's forth-reoming wedding. Clasping her throat in anguish, Alma rushes from the room. She returns to the statue of "eternity" and is joined there by a young traveljoined there by a young travel-ing salesman. She suggests that they go to a night club together, and they depart as the wind blows the dead leaves through the park and beneath the statue.

There are no weak performances He feels that Alma is responsible in this film. The Academy Award for bringing him to his senses, and nominations which were given to Miss Page and Una Merkel were well deserved. There is little doubt that the best actress award should have been given to Miss Page, who is unquestionably an actress of vastly reaching talent.

### Art Department Represented In Louisville Show

Four students, four graduate students, and two instructors in the Art Department were represented in the 1962 Art Center Annual at the J. B. Speed Museum in Louisville during April.

Those represented had 23 art pieces out of the approximate 200 accepted at this big regional art show encompassing Kentucky and Southern Indiana. Of these 23 pieces on exhibition there were two prize winners and one honorable mention orable mention.

Raymond Barnhart, professor of art, said the highly competitive show had seven or eight hundred pieces submitted, including paintings, sculpture, and crafts. He said far into Indiana as Indiana University at Bloomington.

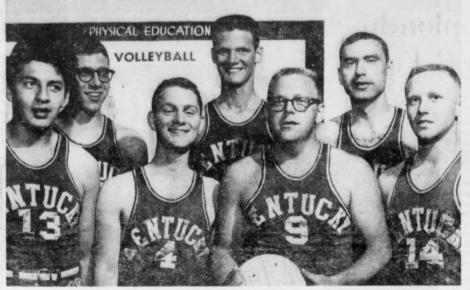

accepted were James Channon, Louisville; Robert Foose, Lex-Students who had paintings ington (water color); David Webb, Lexington; and David Otis, Lexington, (two paintings).

The only undergraduate student sculpture exhibited was by David
